

ACE 142

ACE 142 Coastal Forest Measurements

2 Credits

This course introduces natural resources and data collection skills used to monitor and assess the health and vigor of coastal forests. Students will learn the methodologies of forest resource inventories and understand the importance of sustained yield and integrated resource management. Students will conduct silviculture plantability and free to grow surveys that assess the fulfillment of reforestation obligations.

Prerequisites

English 11 or equivalent and Math 11
