

CPSC 141

CPSC 141 Integrated Software Tools

3 Credits

This integrated lecture/lab course focuses on the utility of the most common software applications in capturing, processing and presenting data. Software packages include databases, spreadsheets, graphing programs, word processing and presentation software. All classes will be held in the computer lab and will cover topics that pertain to both the underlying principles of software operation and the practical uses. (2,2,0)

Prerequisites

English Studies 10, English First Peoples 10 or equivalent and Principles of Math 11; or Applications of Math 11
