

EDUA 101

EDUA 101 Child and Adolescent Development

3 Credits

This course provides students with an introduction to theories, methods, concepts, and research findings relevant to human development from prenatal through adolescence. The importance of individual differences, the effects of heredity and environment, and the ethical issues involved in the research are discussed. Application to childcare situations will be explored in reference to children and their families, including children with exceptionalities and challenges.

Prerequisites

English 12
