

# GEOG 225

---

## **GEOG 225 Regional Geography of B C**

3 Credits

Using the concepts and methods of regional geography, this course examines British Columbia in terms of the patterns of its physical and human landscapes. The interaction of climate geology, biogeography, history, resource utilization, settlement and economic activities are the foundation for discussion of the regions of B.C. and the relationship of the province to the remainder of Canada, North American Pacific Coast and the Pacific Rim.
