

HCAS 1051

HCAS 1051 Common Health Challenges

4 Credits

This course introduces learners to the normal structure and function of the human body and normal bodily changes associated with aging. Learners will explore common challenges to health and healing in relation to each body system. Learners will also be encouraged to explore person-centred practice as it relates to the common challenges to health and, in particular, to end-of-life care.

Prerequisites

Minimum B- in all previous HCA courses: HCAS 1011, HCAS 1021, HCAS 1031 HCAS 1041
