

MATH 0251

MATH 0251 Fundamental Math 0251

2.5 Credits

The goal of this course is to provide students with an understanding of decimal related arithmetic operations including: adding, subtracting, multiplying and dividing and metric conversions. These skills will be applied to problem solving in real life situations; all modules contain examples and questions relevant to Aboriginal people and culture. This course is a requirement for the CCP Fundamental Certificate.

Prerequisites

Placement at the Math 025 level or completion of MATH 024
