

MGMT 270

MGMT 270 Principles of Project Management

3 Credits

Introduces the industry-standard principles for managing projects on time, on budget, and to the organization's satisfaction. This course will cover the entire lifecycle from conceptualization to termination, with emphasis on project scope management, project time management, and project management planning and control. Course will provide the basic tools for successfully managing any type of project regardless of the industry, scope, environment, complexity, culture, or whether it is a public or private project.(3,0,0)
