

PNUR 103

PNUR 103 Practical Nursing Anatomy and Physiology

2 Credits

This course is an introduction to the human body and concentrates on the structure and function of the body systems. It also discusses various health promotion strategies that contribute to optimal function of these systems. Common medical terminology is discussed in context with the different body systems.

Prerequisites

Anatomy and Physiology 12 or equivalent within the last 5 years with a grade of 60% or better.
