

PSYC 221

PSYC 221 Abnormal Psyc and Therapy I

3 Credits

This is the first half of a two-semester course for students who are interested in learning about psychological disorders and therapy. We will examine the causes, diagnosis, assessment, symptoms, treatment and possible prevention of psychological disorders: including historical and current theoretical perspectives, classification systems, cultural perspectives and legal/ethical issues. Examples of topics may include: anxiety disorders, depressive disorders, dissociative disorders and personality disorders.

Prerequisites

PSYC 101 or 102
