

EARLY CHILDHOOD CARE & EDUCATION (ECCE) EXCEPTIONALITIES EARLY CHILDHOOD EDUCATOR DIPLOMA

Exceptionalities Early Childhood Educator Diploma (ECEE) is designed to prepare you with the necessary skills, knowledge and learning dispositions to be provincially certified as an early childhood educator with a specialty in the care and education of children with exceptionalities.

Curriculum is based on current best practices in early learning and care, reflecting the changing needs of children and families in the 21st century. The program focuses on transforming thinking about the education of young children away from the provision of set content to the process of nurturing creative thinking, problem-solving and relationships with and between children.

Theory is brought to life through experiential and place-based learning. The program draws on the strengths of individual learners as it provides a model for supporting the development of dispositions and practices which can, in turn, be supported in working with young children and their families. The program challenges learners to co-create curriculum with children and to design learning environments that embrace the diversity of all children and families including local First Peoples.

ECEE prepares you to apply for a BC Early Childhood Educator Certificate in British Columbia. For more information, please refer to the BC Government ECE Website. (<https://www2.gov.bc.ca/gov/content/governments/organizational-structure/ministries-organizations/ministries/education/>)

Duration of diploma program

The ECEE Diploma program is four semesters and spans two academic years. It is designed to accommodate both full-time and part-time learners. Part-time learners will take longer to complete their program. There is an option to opt-out of the Diploma program after successfully completing the 15 courses required; at this stage, completing learners will be granted a CMTN certificate in the Early Childhood Care & Education (ECCE) Certificate Program. Those who continue successfully, will be granted a CMTN diploma in the ECEE Diploma Program.

There are a number of options for provincial certification. If successful, you can apply for an *Early Childhood Education Assistant (ECEA) Certificate* after taking one of the required courses in either Semester 1 or 2. You can also apply for a provincial *Basic Early Childhood Education (ECE) Certificate* after the successful completion of all courses in Semesters 1, 2 and 3. By completing all semesters, Semester 1 through Semester 4, you are eligible to apply for a provincial *Basic ECE Certificate* as well as *Special Needs Educator (SNE) Certificate* (Under the New West

Partnership Trade Agreement, persons certified in BC as ECE or SNE can transfer their certification to practice to other provinces such as Alberta and Manitoba).

BC ECE Assistant Certificate

Certification by the BC Ministry of Children and Family Development allows learners to work with young children in an early childhood setting (ages birth to 5 years), under the supervision of a qualified Early Childhood Educator.

Following completion of one of the two courses listed below (ECCE 104 or ECCE 167), students may apply for the Early Childhood Education Assistant Certificate with the Early Childhood Registry (<https://www2.gov.bc.ca/gov/content/education-training/early-learning/teach/training-and-professional-development/become-an-early-childhood-educator/>). This allows students to work within the childcare system while continuing to study and going on to complete the BC ECE Basic Certificate Program or the ECEE Diploma or other program of study.

Basic Health insurance is mandatory for all international students. Health insurance costs will be charged every term until students provide proof of MSP.

Career opportunities

Early childhood educators are in high demand in BC and the rest of Canada. BC's 2025 Labour Market Outlook Report ranks early childhood educators in the top 15 careers with greatest job openings.

ECCE graduates have the opportunity to find employment in a variety of settings:

- Group daycares for children between birth and 12 years
- In-home small group or family childcare
- Preschools
- Programs such as Aboriginal HeadStarts (on and off-reserve), School Districts' StrongStart, Supported Child Development (Aboriginal & non-Aboriginal), Infant Development, Aboriginal Infant Development and Family Resource

You may also utilize your ECCE education to obtain employment as an Education Assistant in northern BC Kindergartens and Grade 1. Municipal Parks and Recreation recruit those with ECEA and ECE/ITE certificates for children's programs as well as other community services such as Transition (Safe) homes, Children Who Witness Abuse programs, and respite care homes and services.
